Is there a war still going on in Spain? It looks like it is useless for General Franco to carry on when the best he can do is make peace four or five of the dailies.

Herr Hitler, in his inflammatory speech the other day, called President Benes of the Czechoslovakian government a "bar." We've seen fights start over that very same thing.

Monday morning will bring the wireless news from Palm Beach. You readers, who have vacationed for months, will answer the peal of the bell. Gladys schools are in readiness for another successful term.

After loafing all summer it is hard to buckle down and get in the swing that comes with the rapid approach of another busy season. However, we've caught up with our fishing and are now ready to go to work.

Citizens of Acadia voted a few days ago in favor of a tax which will help to build a power plant. It was a hotly contested election but the plan carried by something less than 100 votes. The Florida Power and Light company serves Acadia at present.

Belle Glade's annual city election has come and gone. On Tuesday of this week Hugh J. Bradley was re-elected for a two year term on the Board of Commissioners. R. K. Harris, was also chosen as a councilman. Rollie Lee Brad dock was the other candidate in the race. H. T. Holloway, whose term expired, was not a candidate for re-election.

Up in Hardee county where Che Dibson held office for many years, a special primary was held this week. W. B. Whidden was chosen as sheriff over Leo Sanders who was serving as an appointee of the governor since Che Dibson resigned several weeks ago to become a state attorney as U. S. marshal. If Whidden makes a good sheriff as Che's when Hardee county can say he's been a good choice.

MORE MILK.
With modern education advanced to the stage where we are educated to the point of scientific, we have special tests to classify the student into his intelligence category, we are apt to lose sight of the fact that the child is as necessary in the operation of our society as any man. Mayors of cities of New York said to a meeting of school teachers in his city, "Before you give a child the Binet test (intelligence rating) be sure to give him the Borden milk. I am sure that if a man finds out that he gets enough milk—just plain cow's milk."

We know that a growing child needs plenty of the right kind of food and today most of us are aware of the various vitamins available in foods especially milk. Without proper feeding there has been many a child who has seemed incapable of learning but often this same dull youngster can learn to read and write merely by seeing that he gets three or three glasses of fresh milk every day.

TRAFFIC PROBLEM.
There are few of us who drive along the roads and highways that do not give a wide berth to the bicycle rider. As we ride back of him, or try to pass him, as he pedals along, we are likely to think that he is a "crazy" boy who they are not to do." The statement is true and we are wise to be unusually careful as we encounter the bicycle. They dart in and out, going here and there with a lack of care or regard to their traffic rights. It is with good cause that we consider them, a new road problem.

Folks in the Glades are not the only ones affected. For the National Guard is on the streets and highways daily, in solving the situation seriously. There are more bikes in America than ever before, and most of them are boys and girls, and as young the law must set aside a certain time with them as with automobile drivers.

Folks are not apt to arrest a youngster for riding through a red light or making a left turn without a signal. This may seem like an easy compromise to young readers, but why not consider this type of traffic the same as you to the motor car? Especially when bicycles cause many accidents in the Glades and elsewhere. There is almost a certain similitude to the cyclist, as well. Since judges are reluctant to impose fines on these young riders, someone has made the suggestion that the child's father be brought into

In another month so southern highways will be loaded with tourists cars and trailers. Floridians will be the chief beneficiaries from all walks of life. New improved air-conditioned streamlined buses will pour a never ending stream of visitors into the state. Railroads, operating crack trains, will run nonstop in the major sections to cater for the increased traffic, and their share to the tourist harvest. Airways and steamship lines with improved facilities and faster service will be the chief competitors in contending a record breaking season.

Many of these visitors will be making their first trip to Florida and their impression and experience on this trip will largely determine whether or not they will return.

Floridians, whose business interests are not directly concerned with tourism trade or agriculture, may figure in the mind of the tourist and entertaining tourists is not their problem but rather that it is a task for the Chamber of Commerce, the hotels, restaurants and resorts.

District, or county, every woman and child in the state receives benefits in many ways from the winter visitor. If tourist travel to the state was suddenly stopped and no visitor from some foreign land entered Florida for a portion of a year, we would all learn what these guests really mean to us.

You and I contend that we are entitled to taxpayer status and are entitled to the benefit of an outsider, losing sight of the fact that each year these visitors leave millions of tax dollars in the state.

If it were possible to suddenly remove from the state those improvements and facilities, and portions of them as were made possible with the use of tourist contributed tax money, we would leave nothing minus many miles of paved roads, all necessary pulleys, etc. Necessary electric switch, connections, etc., all new. Sell all or any part.

ABOUT PEOPLE**Latter Day Saints Meet In South Bay**

John Harris, proprietor of the Belle Glade Lumber company, is widely known for his hunting prowess and the fact that he is an expert golf player. But, Monday night we saw him in a new role. That of lizard charmer. John was attending a meeting of the Woman's club members at Belle Glade when this writer noticed him sitting over in one corner with his shoes off. We didn't know whether John was preparing to lay his trap or was merely resting his dogs. Intently we watched him for a few minutes. He made what seemed to be a few mystic passes and much to our surprise he saw a small lizard crawl out of his shoe. The lizard was well-eyed with amazement it seemed, but in a minute or two gained his senses and trotted off to another corner of the building. We finally decided that the lizard had found its way to John's shoe because those mystic passes weren't mystic passes at all but an effort to rouse the saurian reptile from his abode.

There is an interesting personality in charge of the Belle Glade News printing office in Belle Glade. He is none other than John F. Newton. Mr. Newton has been with our organization for several years—only on the 1st of April, an excellent printer and one educated in the old school. He is of the older generation—the ones who like to smoke a pipe. Day in and day out he goes about his duties of serving the public in the Belle Glade area with printing and serving himself with a pipeful of tobacco every few minutes. Just why he saves the boxes in which he buys a person's clothes or makes them never becomes clear to us. But, in neat arrangement in a remote corner of the office you will see hundreds of these little red and blue boxes stacked up. He seems to have a fondness for keeping everything in its place—for that's the way you'll find all printing equipment in the office when you visit there.

You know Jake Cope who lives up the ridge from Canal Point? Mr. Cope has been a resident of the Glades farming area for 21 years and can tell you some interesting stories of the past and the development of the great cultural empire. Most night he would appear before a meeting in Belle Glade at which discussion was held about the proposed farm statehood to be effected in Dahomey. He was a determined and forceful argument in favor of bringing the market to the Glades and his plea was for co-operation on the part of all who are to be represented in the new state. He ended out that through co-operation only, can a community eventually arrive at a destination that will assure happiness and success for all concerned. Mr. Cope's talk was pleasantly presented and in a tone that won friends.

How often do you have occasion to visit the Town Hall in Belle Glade? Well, we've got a thought that you'd get along as well as welcome in that office as you'll find anywhere in the Glades. City Clerk W. L. Cunningham and his assistant, Mrs. McDonald, have a way of making you feel at home when you enter their office—it's neatly kept and at an instant's notice they can put their fingers on any record you want to see. However, they are cramped for space and with the town growing—records are becoming markedly more business being transacted each year—the office is in dire need of more room in which to carry on the town's business. But, you don't have to worry about Mr. and Mrs. McDonald fussing about it. They go about their business and make the best of what they have. It's a pleasure to visit them.

In most every parking house or on the shores of Lake Okeechobee you'll find a man in charge of the books. As far as we know there is one exception and that is the library of W. H. Vann, who when Mrs. Vann died, she had no money. Whether it's a shock or not, after an account says—an if—there's a lot of information about crops—but whatever you're doing, "keep your money to yourself." For years now she has been in the business and to visit Vann's and not find "B.I.T." there would seem quite strange.

A contract for the sinking of a new 900-foot deep-well well at Orlando was let last week. The new well is expected to increase the city's water supply about 3,000,000 gallons daily.

Top prices for this section were paid to farmers at the Williston Market for hogs last week. Best dressed hog was \$7.50. Two others brought \$6.00 through \$5.40. Four's \$8.30; five's \$8.30, and fours \$6.05.

SOUTH BAY LEAGUE ELECTS
Officers were elected at the Junior League Sunday afternoon at the Community church under the leadership of Miss Margaret Baldwin. Mary Gordon Smith was elected president; Ruth Barstow vice-president; Katherine McLeod secretary and treasurer; Margaret Hayes, recreation chairman; Nina Kelly and Barbara Breen, program committee.

A wiener and marshmallow roast and swim was planned for Thursday afternoon at the Lake Okeechobee club. *Ermelina Hayes* was also present.

A Mutual Improvement association was also organized with Mrs. Mabel Herring as president and Miss Betty Pritchard as vice-president. The group plans to conduct regular weekly sessions each Wednesday evening at 7:30. A class of eight in plan has also been organized with Mrs. W. R. Rashley of Belle Glade as teacher. Classes will be given each Wednesday afternoon at the Mormon church. Members include Mrs. Louise Herring, Mrs. H. B. Walker, Mrs. Margaret Clinton Ely, Evelyn Coblentz, Leona Esther and Mrs. Fred Lee Herring.

Plans are being made for a group of local Mormons to attend the annual conference of the Latter Day Saints at Miami on Sunday, September 18. Regular services will be held at the Coopersburg company with Mrs. J. W. Cochran as head of the firm and C. S. Moore as sales manager. Carl Davis, who has been with the company firm, will continue as bookkeeper. It was announced that

The packing house and broke business of the late J. W. Cochran will be operated by the company with Mrs. J. W. Cochran as head of the firm and C. S. Moore as sales manager. Carl Davis, who has been with the company firm, will continue as bookkeeper. It was announced that

No changes will be made in the policy of the firm, it was pointed out, and operations will be much the same as in the past.

The business has many friends who will be pleased to know that the name of Cochran is to remain in the South Bay business on

the name of Okeechobee.

Mr. Cochran died a few weeks ago in Miami as the result of a heart attack.
